Subject: Polygraph Examination
Date: December 29, 2009

Purpose of Examination: On December 29, 2009 Mr. Scott Abbett (Examinee) was administered a Credibility Examination/Polygraph Examination.

Issue: Use of Steroids or Human Growth Hormones

Examinee is a personal fitness trainer and author on natural fitness. The purpose of the examination was to determine if Examinee has developed his body through natural means and has not used steroids/human growth hormones to enhance his physique.

Using a Lafayette Computerized LX-4000, version 10.0.5 and following a standard AF MGQT format, the follow relevant questions were asked:

- | | | |
|----|----------------------------------------------------------------------------|----------|
| 1. | Do you develop your body through natural means? | Ans: Yes |
| 2. | Have you used illegal substances (steroids/hormones) to enhance your body? | Ans: No |
| 3. | Are you a life time natural bodybuilder? | Ans: Yes |

Careful inspection of the Examinee polygraph examination record revealed test data of adequate interpretable quality that was sufficiently free of artifacts and distorted segments to complete a standard numerical evaluation of these test results.

Upon careful analysis of the examinee's polygraph examination data, it is the interpretation of this examiner that **No Deception** was indicated. Polyscore, a statistical algorithm developed by Johns Hopkins University was also used to evaluate the charts. The algorithm program indicated a high probability of **No Deception** to the relevant questions.

James Black
Polygraph Examiner

Atch: Polyscore

No Deception Indicated--
Probability of Deception is 0.02

Scott Abbett, 12/29/09
